CONFERENCE THEME

The Theme of the Conference is based upon HR Agility and People Functions.

Contemporary day HR professionals have to wear many hats – from recruiting and adapting talent to developing and maintaining corporate policies, in keeping with the Organization Vision and Business Impact. The workforce is changing, so is the working environment – this means, we seek the HR and People functions to be fast, flexible and frictionless – Be Agile.

How do you go about harnessing Agility in HR functions? How can Business Leaders empower HR and People Operations to look ahead of the bend and make not just employee engagement but employee experience captivating? How can HR functions excel in customer/business impact?

There are no 'one size fits all' answers to these questions – what works for one organization might not work for the other but we can always learn and adopt/adapt from each other's experience - be part of the conference and share your unique thoughts and ideas on this interesting topic. Let's always remember – Agility is not a temporary thing – to be applied during an emergency situation but to be nimble always.
